FAU High School’s GT-EV Racing Team and their project electric car are an exciting STEM (science, technology, engineering, and math education) initiative at FAU High School. They were recently highlighted in Kit Car Builder, a leading kit car and specialty car magazine.

Making Waves in STEM

FAU High School GT-EV Racing UPDATE!

First Draft Ready for Orlando

The first draft of the FAU High GT-EV car will be on display at the Florida Energy Summit in Orlando. The team hopes to have the finished car ready in time for December’s boat parade. JM Customs Creations will wrap the final product in chrome blue topped with sponsors’ logos.

Thanks to our FAU HIGH GT-EV Racing Sponsors. You made it possible!
